

This disposable FFP2 mask is made of high quality and a multilayer material. By covering the mouth and nose, it prevents the spread of droplets and protects against harmful substances such as solid and liquid dusts, smoke, aerosols and infections with virus, such as COVID-19. It is hygienic and comfortable to wear. The elastic straps and adjustable nose clips are suitable for a wide range of face shapes.

The IRYS-01 masks are tested as personal protective equipment of category III and are certified according to EN 149:2001+A1:2009.

Product Details

- ☆ FE: 95% according to EN 149:2001+A1:2009
