

The belmask provides a reliable protection in aseptic cleanrooms through their extraordinary high bacterial and particle filtration efficiency. The mask provides a high quality design of the ties and the nose piece, that guarantees a comfortable and easy adjustable fit. It assures absolute safety and protection in the cleanroom based on the extra-wide fit and reduces the risk of contamination.

The belMask is fitted for the use in ISO 4 or higher cleanroom environments and laboratories. The mask is silicone & latex-free and reduces skin irritations.

Area of applications: face cover for process protection in aseptic environments

Cleanroom Classification: ISO 4-8, GMP A-D

category: PPE

art. no.: BELCM259-s  
BELCM259

### Product details

- ☆ EN 14683 Type IIR
- ☆ gamma-sterilized, ISO 11737-2
- ☆ skin friendly
- ☆ color: white
- ☆ tie-back
- ☆ mask size: 250 x 95 mm
- ☆ latex-free
- ☆ bacterial filtration efficiency: 98%
- ☆ Package:  
1 pc in one small bag, 50 small bags in one middle bag, 8 middle bags in one inner bag, 1 inner bag in one carton
- ☆ Material:  
outer layer: PP non-woven fabric  
filter medium: melt blown fabric  
inner layer: skin-friendly non-woven fabric  
65% PP non-woven fabric, 35% melt blown fabric
